## WORK EXPERIENCE

### UI/UX WEB DESIGN

#### Netix Agency

SEP 2018 - NOV 2023

I have been working for Netix for about 5 years as a web designer. During this time, I have created more than 50 WordPress websites, including landing pages, e-commerce platforms, real estate portals, and corporate websites. Additionally, I specialize in scanning for malware, securing against potential attacks, and mitigating any threats to ensure the uninterrupted service for our clients.

### WEB & GRAPHIC DESIGNER

#### MIDIA inc.

JUN 2012 - OCT 2017

I have experience working as a multimedia graphics designer, specializing in presentations and banner creation for websites. I am proficient in designing reports using InDesign and creating dynamic presentations with motion graphics. Additionally, I collaborate closely with web developers to adapt designs and update content to ensure seamless integration with dynamic web environments.

### RUBYCOM

#### GRAPHIC DESIGN

JAN 2009 - JUL 2012

I specialize in a diverse range of creative services, including multimedia animations, captivating Flash banner stories, meticulous graphic design for both digital and print mediums, and providing exceptional customer support to ensure client satisfaction.

## > Certifications

### **Google UX Design** **GOOGLE INC.**

The hands-on, practice-based assessments have allowed me to delve deeply into the intricacies of UX design, from empathizing with users to creating prototypes and gathering feedback.

---

### **Cybersecurity: Defense Against Digital Dark Arts** **GOOGLE INC.**

Define and recognize security risks, vulnerabilities, and threats. You will also be able to identify common security attacks. Understand how security revolves around the principle of CIA (Confidentiality, Integrity, Availability).

---

### **Introduction to Linux** **HACK4U**

Introduction to Linux, where all the necessary fundamental bases will be covered, starting from the most basic, beginning with the installation of your first operating system to learning how to navigate through it.

## EDUCATION HISTORY

### **DEGREE IN GRAPHIC DESIGN & ARTS** **Universidad Pedro Henriquez Ureña** *2001 - 2005*

I studied at UNPHU (Universidad Pedro Henriquez Ureña), where I had a wonderful experience. Throughout my time there, I engaged in numerous projects, fostering creativity, and forming lasting friendships.

### **CREATIVITY & DESIGN** **Samanel inc.** *2007 - 2009*

I am proficient in various creative tools, including Adobe Photoshop, Macromedia Freehand, Illustrator, and Freehand. These tools have been integral to my work in graphic design and visual communication, allowing me to bring ideas to life and create compelling visuals for various projects.

### **WEB DESIGN** **Expression-Training with John Dani.** *JAN 2009 - JUL 2012*

Understanding web design fundamentals, including HTML structure and CSS standards. Proficient in Dreamweaver, I leveraged its capabilities to craft well-structured and visually appealing websites. Additionally, I had experience working with Flash using Macromedia, enhancing the interactivity and engagement of web content.
